LDEMO2600B

2015-2016

Chaire Quetelet II

3.0 credits	15.0 h	1q

Teacher(s) :	
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	The theme varies annually, from purely demographic issues to broader social sciences or health issues. Among recent themes we can mention " Reproductive health in the North and in the South. From knowledge to action " (2004), " The history of Belgium's population and its territories " (2005). The conference is organized by different teams, gathering professors and researchers of the Institute of demog-raphy, of other faculty members of the UCLouvain, other Belgian or foreign universities, working in the related research field.
Aims :	Participation to an international seminar organized by the Institute of Demography on a new topic every year, in order to " Acquire an in depth vision of the progress achieved in knowledge and methods in a specific research field " Be able to write a paper on or make an oral synthesis of a selection of contributions " Meet international specialists in the related fields. *The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".*
Other infos :	Based on personal home-work requested in the frame of the seminars DEMO 2160 and SPED 2040. Abstracts or copies of the contributions, attendency of the international conference.
Faculty or entity in charge:	PSAD
