Enseignants:	Aubin David ;
Langue d'enseignement:	Anglais
Lieu du cours	Louvain-la-Neuve
Thèmes abordés :	This course presents the problems raised by human pressure on nature and the environment as well as the remedies designed by the public authorities in Europe in order to tackle these problems.
Acquis d'apprentissage	<p>At the end of the course, students will have the capacity to:</p> <ul style="list-style-type: none"> <li>- Identify the issues at stake in international and European negotiations about climate change and nature protection;</li> <li>- Deconstruct any environmental policy with analytic and strategic ends;</li> <li>- Evolve through the multi-level governance arrangements of environmental policies;</li> <li>- Conduct original analyses of actors' games within the policy arenas.</li> </ul> <p><i>La contribution de cette UE au développement et à la maîtrise des compétences et acquis du (des) programme(s) est accessible à la fin de cette fiche, dans la partie « Programmes/formations proposant cette unité d'enseignement (UE) ».</i></p>
Contenu :	<p>The course introduces the main concepts about environmental protection and sustainability (e.g. precautionary principle, emission quotas or integrated management).</p> <p>An analytical framework of environmental regulation is proposed that puts an equal emphasis on procedural mechanisms and substantial rules.</p> <p>This analytical framework is then applied to various sectors (e.g. water, air, climate, sustainable development) and different levels of authority in a comparative perspective (e.g. European Union, The Netherlands, or the Belgian Regions).</p>
Autres infos :	<p>Individual or group paper that analyses a particular sustainability or environmental policy in a multi-level perspective.</p> <p>Portfolio of readings.</p>
Cycle et année d'étude :	<p><a href="#">&gt; Master [120] en administration publique</a>  <a href="#">&gt; Master [120] en sciences politiques, orientation générale</a></p>
Faculté ou entité en charge:	PSAD
