Teacher(s) :	Draelants Hugues (compensates Maroy Christian) ; Maroy Christian ;
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	<p>The course will underline the contribution of sociological theory to the understanding of socialisation, education and training in contemporary societies. The following themes will be examined: the links between education, socialisation and social integration, the genesis and transformation of the school institution in relation to political (the development of the Nation-State, the Europeanization process), socio-economic (the transformation of capitalism) or cultural factors (the individualization process).</p> <p>It will also treat central questions for the sociology of education, locating the theoretical and methodological particularities of its diverse streams : for instance, the sociology of school inequalities (Boudon, Bourdieu), of the transformation of curriculum and pedagogy (Bernstein), the qualitative sociology of the actors in the education and training processes (teachers, families, pupils). Finally, the course will take into consideration the questions central to the contemporary transformations of education and training systems : globalisation and evolution of school systems' regulation, transformations of schools and of the teaching profession, policies aiming at fighting against school failure and at treating the symptoms of the "school crisis" (violence, incivility), development of adult training policies and "lifelong learning".</p>
Aims :	<p>The objective of the course is to develop the following skills and knowledge</p> <ul style="list-style-type: none"> <li>- Introducing to the main concepts and theories of the sociology of education and training</li> <li>- Understanding the processes in education and training that produce social inequalities</li> <li>- Understanding the macro-sociological relations between educational systems, States, economic systems and societies</li> <li>- Developing the capacity to analyse the main elements of educational systems: educational policies and the State, schools, families, pupils</li> </ul> <p>Demonstrating the contribution of sociological analysis in highlighting education and training issues at stake in the Belgian education system and at European level.</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
