|------------------------------|--|
| Teacher(s) : | Lucas Sophie ; De Smet Charles (coordinator) ; Decottignies Anabelle ; |
| Language : | Français |
| Place of the course | Bruxelles Woluwe |
| Prerequisites : | This tutorial is designed for students with basic knowledge in molecular biology and genetics, such as offered in WSBIM1202 and WBCHM1317 courses. |
| Aims : | <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i> |
| Evaluation methods : | The student's work will be evaluated by all teachers on the basis of a presentation of his work. |
| Content : | Based on the topic that has been selected, one of the teachers will be designated as "tutor" to accompany the student. Supporting material will be book chapters, or a series of articles covering the topic. The student then searches the required information in the literature, and is assisted by his tutor to guide his work. He then prepares a synthesis document, in the form of a Powerpoint presentation. |
| Cycle and year of study : | > Master [120] in Biomedicine > Master [60] in Biomedicine |
| Faculty or entity in charge: | SBIM |
