Third Prague-Brussels Mathematical Statistics Seminar

Friday and Saturday 13-14 May 2005

Université Libre de Bruxelles
Room : Salle Henri Janne
44, avenue Jeanne, 1050 Brussels – 15th floor

Tentative Program

Friday May 13

13:05-14:30 Lunch

14:30-15:15 Marie Huskova (Charles University Prague)

15:15-16:00 Ingrid van Keilegom (Université Catholique de Louvain)
“Backfitting versus profiling in general criterion functions”

16:00-16:25 Coffee

16:25-17:10 Jan Picek (Technical University, Liberec)
“Tests for the Gumbel domain of attraction”

17:10-17:55 Johan Segers (Catholic University Leuven and Tilburg University)
“Projection estimates of constrained functional parameters”

19:30 Dinner

Saturday May 14

- 9:00-9:45 Catherine Dehon (Université libre de Bruxelles)
- 9:45-10:30 Jaromir Antoch (Charles University Prague)
“Computational aspects of change point detection”
- 10:30-10:55 Coffee
- 10:55-11:40 Sébastien Van Bellegem (Université catholique de Louvain)
“Simultaneous testing in nonparametric regression with discontinuities in the mean and variance functions”
- 11:40-12:25 Steve Portnoy (University of Illinois and Francqui Foundation)
“Censored regression quantiles : a correction”
