| Language : | Français |
| Place of the course | Louvain-la-Neuve |
| Aims : | The master's thesis is an important time for learning by doing personal research. It must allow the student to develop and demonstrate an ability to manage by itself a ques-tion disciplinary asking assumptions, by implementing the relevant methodologies most suitable, analyzing and adequately interpret the information gathered and results achieved in creating relationships with one or more adequate theoretical frameworks, outlining and writing the content and the achievements of his entire approach. The memory of late Master 120 is therefore the culmination of a science curriculum. It requires the mobilization of all the methodology and heuristics approach university. The submission must demonstrate a capacity for synthesis and reflection and focus on targeted research questions.<br><br>*The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".* |
