

2.0 credits

15.0 h

Teacher(s) :	Faber Chantal ;
Language :	Français
Place of the course	Bruxelles Woluwe
Main themes :	<p>Focussed on 9 themes (equivalent to 15 hours of lectures) :</p> <p>Theme 1&amp; bsp;: Legislation</p> <p>Theme 2 : Architecture, personnel, environment</p> <p>Theme 3 : Cleaning - disinfection and controls</p> <p>Theme 4 : Packaging and controls</p> <p>Theme 5 : Sterilization methods and controls of the load</p> <p>Theme 6 : Validation of each sterilization method</p> <p>Theme 7 : Quality assurance, tracking and documentation</p> <p>Theme 8&amp; bsp;: Prions</p> <p>Theme 9&amp; bsp;: Instruments</p>
Aims :	<p>&amp; bsp;&amp; bsp; General objectives :</p> <p>To give the student the theoretical and practical skills to be able to conceive and implement in a hospital institution the whole of the processes related to sterilization, as part of a global quality assurance system.</p> <p>&amp; bsp;&amp; bsp; Specific objectives</p> <ol style="list-style-type: none"> <li>1. To master, by an in-depth scientific training, the most recent data regarding washing-disinfection and sterilization.</li> <li>2. To acquire the aptitude to objectively respond to the questions related to the washing-disinfection and sterilization.</li> <li>3. To tackle on a scientific way the research on washing-disinfection and sterilization.</li> <li>4. To learn writing a specific procedure.</li> </ol> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods :	<p>During the evaluation based on a written examination, the student, confronted with original practical problems, must be able to explain and justify the solutions he suggests to put into practice. &amp; bsp;&amp; bsp;</p>
Teaching methods :	<p>The course makes the link between the legal regulations (Laws, Royal Decrees and Departmental Orders) and the practice experience gained by the students during their training period in a sterilization service.</p>
Content :	<p>Plan of the course</p> <ol style="list-style-type: none"> <li>1. Introduction                     <ol style="list-style-type: none"> <li>a. History</li> <li>b. Definitions</li> </ol> </li> <li>2. Legislation</li> </ol>

- a. Belgian
- b. European.
- 3. Quality assurance and tracking
- 4. Environmental controls
  - a. Air
  - b. Water
  - c. Surfaces
  - d. Hands
- 5. Premises
- 6. Personnel
- 7. Qualitative aspects
- 8. Quantitative aspects
- 9. Treatments prior to sterilization
  - a. Chemicals
  - b. Manual treatment
    - i. Washing and disinfection
    - c. Automated treatment
      - i. Techniques
      - ii. Washing and thermal disinfection
      - iii. Controls of the washing process
        - 1. Thermometric controls
        - 2. Stain tests
        - iv. Controls of thermal disinfection
    - 10. Techniques of sterilization
      - a. Dry heat sterilisation
        - i. Technique and Technology
        - ii. Guideline values
        - iii. Principles for loading and Controls
        - iv. Validation
        - v. Depyrogenation
      - b. Moist heat sterilization
        - i. Technique
        - ii. Guideline values
        - iii. Principles for loading and unloading
        - iv. Controls
          - 1. Physico-chemical indicators
          - 2. Microbiological indicators
          - 3. Thermometric controls

- v. Validation
  - 1. Surgical instruments
  - 2. Pharmaceutical Productions
- c. Ethylene Oxide
  - i. Technique
  - ii. Guideline values
  - iii. Controls
    - 1. Physico-chemical indicators
    - 2. Microbiological indicators
    - 3. Thermometric controls
- d. Hydrogen Peroxide
  - i. Technique
  - ii. Guideline values
  - iii. Controls
    - 1. Physico-chemical indicators
    - 2. Microbiological indicators
    - 3. Thermometric controls
- e. Radiations
  - i. Gamma Rays
  - ii. Accelerated electrons
  - iii. Physico-chemical indicators
  - iv. Microbiological indicators
- 11. Packaging
  - a. One-Use packaging
    - i. Types
    - ii. Controls
    - iii. Sealing devices
      - 1. Controls
  - b. Containers
    - i. Controls
- 12. Prions
  - a. History
  - b. Cleaning and disinfection
  - c. Sterilization
- 13. Maintenance of equipments
- 14. Treatment of new instruments

	15. Specificity of dental instruments
Cycle and year of study :	<a href="#">&gt; Advanced Master in Hospital Pharmacy</a>
Faculty or entity in charge:	FARM
