

2.0 credits

22.0 h

Teacher(s) :	Pestiaux Dominique ; Heureux Philippe ; Vanthuyne Daniel (coordinator) ; Minguet Cassian ;
Language :	Français
Place of the course	Bruxelles Woluwe
Main themes :	Themes from the following: headaches, contraception, palliative home care, balance problems, back pain, depression, insomnia. Methods: Groups are made up of 15 to 20 students. Problem-based learning and case-studies are moderated by a general practitioner. Students participate actively by bringing cases from their clerkship experience, by bringing evidence-based material they have read, by regularly assessing the objectives, by choosing 3 themes.
Aims :	At the end of the course, students should- be able to adequately manage common problems in general practice- have progressively developed the ability to represent problems through analysis of common situations in general practice. <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
