

2.0 credits

16.0 h

Teacher(s) :	Reynaert Christine ; Heureux Philippe (coordinator) ; de Becker Emmanuel ; Pestiaux Dominique ; Charlier Dominique ;
Language :	Français
Place of the course	Bruxelles Woluwe
Main themes :	Small groups of 15 students are led by two leaders : a general practitioner and a psycho-analyst. The leaders promote the emergence of a clinical story lived by one of the students and a free discussion between the members of the groups, like a "Balint Group". The inscription is free at the condition to attempt all the lessons.
Aims :	Making the student more sensitive to the relationship between the patient and the doctor and more aware of the importance of listening in the comprehensiveness of the patient and his difficulties in his own life and familial and social context. <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Content :	7 of 8 workshop, one each week. Participants are asked to observe their own work as fellow during the week and to choose a medical situation they lived during this week.
Other infos :	Examination of this cursus is a part of final « OSCE ».
Cycle and year of study :	> Advanced Master in General Medicine
Faculty or entity in charge:	MED
