This biannual  
course is taught on  
years 2010-2011,  
2012-2013, ...

Teacher(s) :	Isebaert Lambert ;
Language :	Français
Place of the course	Louvain-la-Neuve
Inline resources:	/
Prerequisites :	Thorough knowledge of Classical Latin (equivalent to bachelor level).
Main themes :	The lecturer will deal with one or several themes relating to the synchronic functioning and to the history of the Latin language, with regards to current linguistic research: syntactic functions and semantic roles, aspects of lexicology, problems of phonology, the interpretation of archaic texts, relations with the other languages and dialects of ancient Italy.
Aims :	In-depth study of specific questions of Latin synchronic or diachronic linguistics. At the end of this course, the student will be familiar with the methods and results of current research on the subjects dealt with. <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods :	Examen oral.
Teaching methods :	Lectures combined with presentations by the students.
Content :	The course will deal with one or more specific questions of Latin synchronic or diachronic linguistics. The content of the course will vary from year to year in function of the themes dealt with.
