

5.0 credits	30.0 h	1q
-------------	--------	----

Teacher(s) :	Legrand Vincent ;
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	The teachers single out two or three issues (like oil and water) and analyze the various dimensions of a natural resource (sociology, economy, geopolitics etc) as well as the strategies of involved private and state actors. The words of appropriation of natural resources (land, water, minerals, etc.) and the conditions of collective action in the management of natural resources are given due attention.
Aims :	The course provides the students a methodology to analyze questions related to the management of natural resources. <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Other infos :	Course on development policies is highly recommended Oral presentation of a research paper
