Teacher(s) :	Dochain Denis ; van Ypersele de Strihou Jean-Pascal ; Kestemont Marie-Paule ; Tyteca Daniel (coordinator) ;
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	Various themes are proposed, depending on the personalities invited. A list of examples is given below (abstract).
Aims :	The goal of the seminar is to initiate the student, in an active, participative and interdisciplinary manner, to a field approach to environmental issues and sustainable development. <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Content :	The seminar is organised as a set of speeches / debates led by personalities who are professionally involved in the resolution of environmental and sustainable development issues. Those sessions are proposed on such topics as, for example, business and the environment, recycling, clean technologies, land planning and environment, impact assessment, solid waste issues, life cycle assessment and eco-audits, employment and environment, consumption modes, mobility and environment, North-South technology transfer and environment, communication in the environmental debate, eco-epidemiology.
Other infos :	Evaluation takes place through preparation of a report on the speeches /debates in which the students took part.
Cycle and year of study :	> Master [120] in Environmental Science and Management > Master [60] in Environmental Science and Management > Master [120] in Population and Development Studies
Faculty or entity in charge:	ENVI
