<p>Evaluation methods :</p>	<p>--                  Continuous assessment (summative and formative) based on the active participation in the course, the presentations, different tests.                  --                  Oral exam based on an article prepared by the student and an improvised dialogue.</p>
<p>Teaching methods :</p>	<p>--                  Revision of basic vocabulary and grammar.                  --                  Acquisition of new field-related vocabulary ' concepts by means of reading exercises, oral exercises (debates, dialogues etc'), listening exercises and vocabulary exercises.</p>
<p>Content :</p>	<p>The course is directed at interactive communication. The provided activities are aiming at the development of communication skills needed in the professional field, in commanding the code (general and specific vocabulary and grammar), necessary for putting these skills in practice. These activities will simulate real situations in which oral skills are required.                  They will be of two types:                  --                  presentation and activation of functions of language directly linked to professional life (social skills, telephonic communication, role-playing patient-therapist)                  --                  individual and interactive speaking activities. This part includes a presentation on a subject related to the medical field.</p>
<p>Bibliography :</p>	<p>--                  Course notes : "LNEER2451 Interactieve communicatie"                  --                  Audio- and videotapes on subjects related to physiotherapy, sports and physical training.</p>
<p>Other infos :</p>	<p>--                  Lessons in groups of 15-20 students                  --                  The teacher is available during his office-hour(s) and can be contacted by e-mail.</p>
<p>Cycle and year of study :</p>	<p><a href="#">&gt; Bachelor in Motor skills : General</a>  <a href="#">&gt; Bachelor in Physiotherapy and Rehabilitation</a></p>
