Teacher(s) :	Godyns Jan ; Mory Agnes ; Noirhomme Barbara ;
Language :	Français
Place of the course	Tournai
Aims :	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods :	Activities shall be subject to continuous evaluation. Evaluation criteria are established by the teachers and known to the student at the beginning of the exercise. The year is divided into as many class periods as themes. Each theme shall be assessed by a referent teacher. A more important coefficient is given to the summing-up exercise, namely the traveling book initiation.
Teaching methods :	Exercices prioritize creative research without preliminary lecture. They move back and forth between spatial experiment (reality) and drawing (observation, projection). Starting with a collective work, the place is taken place in three places and give to an individual work : - Observation of the real and manipulation - Analysis of results and theorisation - Re-experimentation and theory-testing
Content :	Experimnt, analysis, understanding, representation, interpretation of observed and/or thrown space will be speaking to the class. At the same time, the course will allow to test various means and tools of graphic and plastic expression.
