Teacher(s) :	Wintgens Anne ;
Language :	Français
Place of the course	Bruxelles Woluwe
Main themes :	<p>Each course's unit (2 hours) develops a topic, for example: anorexia, infant's insomnia, enuresis, encopresy, very anxious children, aggressive children, nervous children, tics, the school failure, adverse children, sexual problems, etc.</p> <p>The developed topics is the occasion to understand</p> <ul style="list-style-type: none"> - How to locate infantile psychopathology? - What is indicating of gravity? - Why certain psychopathological mechanisms are set up;? - what can we make and say : How to speak with the child and his parents... role about listening, information, the council... In what consists the guidance of the parents, therapy of support of the child? When to think of medication in the childhood? When separate the child from his family? How to collaborate with the network?
Aims :	<p>To sensitize the non psychiatrist's doctors (mainly general practitioners and pediatricists) with a manner of being and of making in first line when they are confronted with daily psychopathologist problems in the childhood</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Content :	<p>Varied topics of infantile psychopathology are approached, by taking care of their "daily" dimension, i.e. with the fact that they are likely to be presented at the cabinet of the general practitioner and the pediatricists, and that they are likely to be treated by those, at least partly. The nature of the topics approached is variable in reference to cases presented. We center us on the clinical location, some large etiopathogenic's mechanisms, and on the components of the treatment in first line.</p>
Other infos :	<p>Evaluation: oral examination: to discuss a case study.</p> <p>Support: cases discussions, videos.</p> <p>To consult the syllabus "Introduction to the psychopathology and the child's psychiatry" (Prof JY Hayez) who gives synthetic informations.</p>
Cycle and year of study :	<p>> Master [120] in Biomedicine</p> <p>> Master [240] in Medecine</p>
Faculty or entity in charge:	MED
