

6.0 credits

60.0 h

Teacher(s) :	Delzenne Nathalie ; Thissen Jean-Paul (coordinator) ; Lanthier Nicolas ; Beauloye Véronique ; Stéphanne Xavier ; Lysy Philippe ;
Language :	Français
Place of the course	Bruxelles Woluwe
Main themes :	This course has the goal to initiate the student to the research in nutrition, fundamental as clinical. In the first step, the teacher introduces the subject of his or her research by an overview of the problem or the question that he or she investigates. In a second part, the students have to read and present orally one recent research publication in this field.
Aims :	This course has the goal to initiate the student to the research in nutrition, fundamental as clinical. <i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods :	The evaluation has two parts: On one hand, a written exam based on the introductory presentation by the teacher; On the other end, an evaluation of the oral presentation of the research article made by the student.
Cycle and year of study :	> Master [120] in Biomedicine
Faculty or entity in charge:	SBIM
