| Language : | Français |
| Place of the course | Louvain-la-Neuve |
| Main themes : | This course teaches the various forms of written scientific communications, the editorial style of the APA and the process of publication. It provides to the students all formal knowledge necessary to be able to publish an international publication. |
| Aims : | <p>At the end of the course, the student will have:</p> <ul style="list-style-type: none"> to control the APA style; to have carried out a posted communication (poster); to have written a scientific article based on data collected or used; to have carried out a review of article (on the basis of manuscript of another student); to have developed a critical, constructive and stoical attitude towards the universe of scientific publication. <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p> |
| Evaluation methods : | The evaluation focuses on the works completed by the students during the semester. |
| Content : | The course is based on regular exercise, different levels of interaction between students (collaboration, autonomy, confrontation), and a gradual learning through five main tasks: (1) participation in a journal club (oral presentation of a scientific paper), (2) the design a poster (visual presentation of a research), (3) the writing of a scientific article (4) the review of another student's article, and (5) the revision of its own article after reviewing. The course is organized around weekly sessions where teachers provide basic knowledge, supervise the work and organize the exchange. |
