LARCB2219

2015-2016

Droit de l'urbanisme

2.0 credits	30.0 h	2q

Teacher(s) :	Van Ypersele De Strihou Joel ;
Language :	Français
Place of the course	Bruxelles Saint-Gilles
Aims :	*The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".*
Evaluation methods :	Students'skills are evaluated bases on an oral examination with prior written preparation. Students receive several questions, partly theoretical (evaluating knowledge and understanding of legal logic) and partly practical (assessment of the ability to use the acquired knowledge for cases resolution). The CWATLUP and CoBAT is at their disposal.
Teaching methods :	The course privileges a theoretical and a systematic approach to the subject matter. The constant reference to practical cases and examples encountered in court procedures facilitates understanding of the topic, and students can immediately perceive the practical value of the taught theoretical material.
Content :	The course purpose endeavours to : -- stimulate the student's autonomy (given the evolving natur of urban planning law) : the course thus refers systematically to the CWATUP and the CoBAT which the student will have to use during the final examination; -- stimulate the students' legal analysis abilities (urban planning law is intended to solve increasingly complex practical cases compared to the written rule and has a specific position in the hierarchy of norms) : for this purpose students are invited to propose solutions and solve some simple cases, before the resolution method is taught to them; -- bring the right habits in students - conduct critical analysis of situations (given the gap between legal fictions and the reality on the ground) : students are faced with typical cases aimed at stirring up suspicion and prior analysis before any start of the architectural project.
Other infos :	Students will receive a complete syllabus at the beginning of the year, th CWATUP and the CoBAT.
Faculty or entity in charge:	LOCI
