15.0 h + 15.0 h

Teacher(s) :	François Aurore ;			
Language :	Français			
Place of the course	Louvain-la-Neuve			
Prerequisites :				
Aims :	The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".			
Evaluation methods :	The final mark (/20) will be distributed as follows: theoretical section: 10 points (written exam) practical section: 10 points (exam at the computer workstation: 70%; work submitted during the year: 30%)			
Teaching methods :	 Theoretical course  Practical sessions in the information technology pool;			
Content :	The aim of this course relating to the application of information technology to humanities and history, is to raise students' awareness of the possibilities which the use of computer science in their field represents. During this course we will deal with the following in particular:  introducing the students to information technology functionality and concepts and to the technical, legal and social challenges posed by the introduction of information and communication technologies, generally but also within their disciplines;  becoming familiar with basic administrative software;  exploring the possibilities offered by information technology for document research and processing information in their respective disciplines. These lessons will include both elements of theory and practical work.			
Bibliography :	V			
Other infos :	Nil.			
Faculty or entity in charge:	FIAL
