UCL Université catholique de Louvain

LOPES2215

2015-2016

Regional development

5.0 credits	30.0 h + 6.0 h	1q

Teacher(s) :	Dejardin Marcus ; SOMEBODY ;
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	This course will be articulated around two axes: - relations between the projects/actors (public development societies, companies, social and cultural actors, etc.) and concepts such as dialogue, partnership, networks of information and collaboration, etc., according to various approaches and uses in terms of regional development; - the nature of the "collective process of development", based on the interactions between economic and social agents, a process transforming its environment into a dynamic economic factor.
Aims :	At the end of this course, the student will be able - to analyze the history and the various contemporary approaches of the regional development; - to master the main concepts (historical evolution and various contemporary approaches) relevant in the area of regional development; - to apply these concepts to realities of their local environment. *The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".*
