UCL Université catholique de Louvain

LSTIC9002

2015-2016

Training course in a non-UCL information centre or library

10.0 credits	200.0 h

Teacher(s) :	
Language :	Français
Place of the course	Louvain-la-Neuve
Prerequisites :	to have completed the LSTIC9001 internship (internship in an UCL library) *The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.*
Main themes :	The internship takes place either in a public library, an academic library, a documentation centre, or a consultancy in documentation management. In cooperation with the management of the host institution, students can observe the daily routine in the different departments (public reception and training, cataloguing and technical services, computer software, library buses if there are any and so on) and play an active part in it. They analyse the opportunities and the constraints of a library or a documentation centre and take part in current professional debates. They also contribute to the long-term thinking of the management by defining a precise issue for development, presenting the state of the art and putting forward one or more possible scenarios. A description of the host library services (opportunities and constraint) and an audit review are the subject of an internship report which is defended orally before the readers of the report.
Aims :	The internship enables students to take an in-depth look at management issues either in a public library, an academic library, a documentation centre or a consultancy in documentation management. *The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".*
