Questions of religious sciences: biblical readings

2.0 credits	15.0 h	2q

Teacher(s) :	Ausloos Hans ;
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	In order to achieve these objectives, the instructor proposes reading certain chosen biblical texts, using a method that is clarified and justified in light of the present cultural context. In reading these texts, he/she develops a reflection on the biblical message about the human being in the world and about possible paths for life. The basic awareness of the plurality of religious and laic approaches protects the discourse from close-mindedness, opening it to different traditions and other approaches.
Aims :	By the end of this course, the student should be able: - to confront him/herself in a personal and critical way with the reflection developed during the lectures on the basis of biblical texts, and to argue his/her position, showing that he/she is conscious of the complexity of the questions at stake, also when confronted with various philosophical and religious traditions. - to read a biblical text methodically, showing that he/she understands what is implied by such a process of reading and interpreting a text in the present context. *The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".*
