| Evaluation methods : | Case study preparation and active student participation in the case discussions Individual assignments Individual written exam | | | |
| Teaching methods : | General and interactive courses (including case studies analyses) Testimonies from marketing practitioners and experts from different sectors of activity | | | |
| Content : | Companies try to tie up narrow contacts and to create long-lasting relations with their customers given the potential beneficial effect of these long-lasting relations on the profits of companies. The concepts which allow to characterize the relation between the company (or the brand) and its customers are called the relational concepts. These concepts appeared from the literature related to B2B and to service marketing. In this context, this course looks at theories and practice of services marketing and focuses on the challenge of managing services and delivering quality service to customers. | | | |
