Q1

This biannual learning is being organized in 2017-2018

Teacher(s)	Devolder Pierre ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	The following themes in the field of corporate finance will be addressed: - Introduction to finance and presentation of the financial system; - Decision making under uncertainty; - Analysis and evaluation of investment projects; - Analysis and evaluation of basic financial assets; - The financing structure
Aims	<p>1 This course aims at providing the students with the core elements of the financial analysis. By completing the course successfully, the student will be able to place the financial decision problems of a company in a theoretical framework, and to develop a coherent reasoning in order to understand and solve those problems rationally (asset valuation, financial structure, etc).</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Content	Content: After introducing the basic financial concepts and decision making under uncertainty, the course will deal with the main financial decisions that a company has to face (financing decision, investment decision, dividend policy, etc.). Methods: Lectures and practical sessions where the students will be given the opportunity to solve case studies and exercises.
Other infos	Evaluation : Class participation and oral examination, in French or English Support : Slides provided through icampus References : Provided during the class
Faculty or entity in charge	CLSM
