30.0 h + 30.0 h

Q2

Teacher(s)	Andres Michael ;Goffaux Valérie ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	The course uses the different formats of scientific communication in order to develop the skills necessary for effective communication.
Aims	<p>The course emphasizes the acquisition of skills rather than formal knowledge. The student will learn to adapt to the audience, to structure their communication around a message, to master the rules and formats of scientific communication, with a critical mind.</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	The evaluation focuses on the following practical exercises that will be done during the semester : (1) the production of an oral communication (poster), (2) the writing of a scientific article, (3) the review of an article written by a peer. The evaluation of these three works contributes equally to the overall grade. There is no examination in June.
Faculty or entity in charge	EPSY
