Q1

Teacher(s)	Baudewyns Pierre ;Reuchamps Min ;
Language :	English
Place of the course	Louvain-la-Neuve
Main themes	In this course, students will learn about as many methods as possible that could be useful for their own work.
Aims	<p>At the end of this course, the students will be able to:</p> <ul style="list-style-type: none"> <li>• Define a research design</li> <li>• Identify which method(s) best fit their needs</li> <li>• Use these methods in their work</li> <li>• Present their use of these methods</li> <li>• Critically reflect about methods</li> </ul> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	This course is assessed via an individual paper and its presentation as well as peer-reviewing of others' work and the animation of a session of presentation/discussion.
Teaching methods	This course starts with two sessions about research design. On this basis, several methods are presented during the following sessions. Each of these sessions are made of two parts: a guest lecturer presents a particular method and a - group of - student(s) present(s) how they would use it in their own work and other students review their proposition. The final assignment is a paper that presents a research question with its research design
Content	This course offers a toolbox of applied methods, that is methods that can be applied in the real life
Bibliography	Un portefeuille de lectures sera communiqué tout au long du cours.
Other infos	This course demands active student participation and a good command of English
Faculty or entity in charge	PSAD
