Teacher(s)	de Becker Emmanuel ;
Language :	French
Place of the course	Bruxelles Woluwe
Aims	<p>1 The aim is to sensitize the non psychiatrist's doctors (mainly general practitioners and pediatricians) with the great psychiatric and psychosomatic syndromes in the childhood.</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Content	The aim of the course is to review the great syndromes of infantile psychopathology. We sensitize the student with the location, the étiopathogénie, and especially with the treatment's components which it can implement in first lines (general practitioner or pediatricians).
Other infos	Evaluation: oral examination: to discuss a case study. Support: cases discussions, videos. To consult the syllabus "Introduction to the psychopathology and the child's psychiatry" (Prof JY Hayez) who gives synthetic informations.
Faculty or entity in charge	MED
