15.0 h

Q1

Language :	English
Place of the course	Louvain-la-Neuve
Main themes	This course will expose students to the issue of the social responsibility of public and private decision makers in economic life. The questions addressed include: How to take into account societal factors when making a decision, beyond direct economic impact and legal compliance ? Why should those factors be considered ? What are the challenges related to that issue ? In particular, how to define and act according to the "common good" ? What are the circumstances and settings that facilitate the practice of social responsibility ?
Aims	<p>At the end of the class, students should be able to - understand the key issues and concepts related to corporate social responsibility - apply and debate them within specific business and social contexts</p> <p>1</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	Evaluation will be made through a written essay and an oral exam on the essay and on specific points of the course. Presence and participation in class will also be taken into account.
Content	This course in two parts will combine a series of introductory classes on the notion of social responsibility from a philosophical point of view (taught by professor A. Gosseries), and a week of classes devoted to applying feminism to firms (taught by Prof. A. Gheaus)
