Evaluation methods	Multiple choice questionnaire.
Teaching methods	Readings and lectures.
Content	The course will start with a rapid history of the philosophical and cultural origins of psychological ideas. Next the course will describe the legacy of these traditions and the emergence and positions of various currents in psychology to this day. The course will also involve a discussion of what is meant by science et non-science, as well as natural/exact vs social sciences and humanities. This implies a critical examination of the currents and disciplines.
