

Teacher(s)	Barréa Catherine ;Beuloye Véronique ;Brichard Bénédicte ;Clément de Cléty Stéphan ;Debauche Christian ;Godefroid Nathalie ;Lysy Philippe ;Nassogne Marie-Cécile ;Scheers Isabelle ;Smets Françoise coordinator ;Sokal Etienne ;Stéphenne Xavier ;Symann Sophie ;Van der Linden Dimitri ;
Language :	French
Place of the course	Bruxelles Woluwe
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods	Exam will be written, in June, with multiple choices and open questions with short answers. Last lesson will include training for the exam.
Teaching methods	Multidisciplinary team will teach Paediatrics transversally, aiming to prepare students for clinical rotations. Mainly based on cases discussions or common paediatric problems (cfr content here above). Background = paediatric lessons from BAC3 to Master2. Two teachers from different specialities will be associated for interaction. Specific paediatric standard of care will be underlined.
