

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

20 credits

25.0 h + 40.0 h

Teacher(s)	Rezsohazy René ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	The internship consists in a full-time occupation in a company sensu lato, which can be a research and development dept. of a pharma or biotech industry, or a consulting group, a management office, an administration etc. The trainee will be supervised by a dedicated person in the company, but will be assimilated as far as possible to the company working team he is involved in such as being a staff member.
Aims	<p>The goal of internship is to immerse the student in a concrete professional framework (private laboratory, quality control department, design office, ). Through this training the student will gain a first-hand, short-term professional experience</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	<p><b>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</b></p> <p>Continuous evaluation by the internship supervisor.</p> <p>Evaluation of a written report, an oral presentation and an oral discussion, after the internship, by a jury including the training supervisor and external evaluators to the company.</p>
Teaching methods	<p><b>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</b></p> <p>Long-term internship in a company (in the broad sense)</p>
