

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

5 credits

22.5 h

Q1

Teacher(s)	Zen Mathieu ;
Language :	French
Place of the course	Louvain-la-Neuve
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Formative assessment including group assignments and knowledge tests. The validation of credits associated with this cours requires the success of each of these activities. All relevant information related to these terms and conditions is available on Moodle.
Teaching methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Hybrid teaching combining lectures, practical work and teaching by project.
Content	<ul style="list-style-type: none"> • From usability to user experience • Research-based web usability guidelines • Heuristic evaluation • Prototyping • Experimentation (quantitative research method) • Survey (qualitative research method) • User interface aesthetics
Inline resources	Moodle : slides, bibliography, assignment, evaluation criteria grids Web : videos, blogs, web apps, websites
