## Basement of physical and sports activities

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

3 credits

Q1 and Q2

Teacher(s)	Marique Thierry ;			
Language :	French			
Place of the course	Louvain-la-Neuve			
Main themes	Firstly, the basic skills (strength, flexibility, stamina) will be individually evaluated. The tests used will be easy and will allow auto-evaluation by the students. Secondly, these skills will be developed through specific and varied activities. The development of strength and muscular stamina will be made among others on machines specifically engineered for body building. Quality of execution (position, breathing, rhythm) will be underlined when strength and flexibility will be developed. This qualitative aspect of work will allow the development of the corporal schema of the student and will be taken into account in the evaluation.			
Aims	At the end of this educational module, the student will have improved his corporal schema; he will have optimally developed his strength, flexibility and stamina skills in order to facilitate his learning in several sports disciplines during his formation. He will have been aware of the transversal and progressive nature of these skills. Finally, he will have acquired some autonomy in the management of his own condition.			
Content	Will be completed by the titular professor when the courses will be attributed			
Other infos	Pre-requisite Evaluation Continuous and/or final for the practical part with a possible questioning and/or final examination in order to verify the acquisition of the knowledge associated with practice.Quantitative evaluation for stamina, strength and flexibility and qualitative evaluation for strength and flexibility. Support Class file Supervision Titular professor(s), technical adviser(s) and/or assistant(s) possibly helped by monitor students Others			
Faculty or entity in charge	FSM
