

Dutch linguistics: morphosyntactic, phonetic and lexical aspects of Dutch as a foreign language

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

5 credits	15.0 h	Q1
-----------	--------	----

Teacher(s)	Hiligsmann Philippe ;
Language :	Dutch
Place of the course	Louvain-la-Neuve
Main themes	<p>This course deals with the principal concepts of foreign language learning (for example, the concept of errors, the notion of interlanguage, the role of the native language in foreign language acquisition and learning, the different learning strategies, etc.)</p> <p>Prominent aspects will be: morphosyntactic, phonetic, and lexical aspects of the interlanguage of learners of Dutch (as a foreign language), especially of French-speaking learners of Dutch.</p>
Aims	<p>At the end of the course, students should :</p> <ol style="list-style-type: none"> 1. have developed a theoretical knowledge of language acquisition vs. foreign language learning; 2. have acquired a theoretical and practical knowledge of the characteristics of the interlanguage of learners of Dutch as a foreign language, especially French-speaking learners of Dutch; 3. been able to conduct their own research in interlanguage study. <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>Oral exam in January and in August.</p>
Teaching methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>Flipped classroom and attendance at a conference</p>
Content	<p>In the first part of this course, we will discuss the different theories of foreign language acquisition and learning. In the second part we will deal, on the basis of case studies, with analyses of morphosyntactic, phonetic, and lexical aspects of the interlanguage of learners of Dutch (as a foreign language), especially of French-speaking learners of Dutch. We will also focus on the processes that can explain the different types of errors that appear in the interlanguage.</p>
