<p>Other infos</p>	<p>OTHER ISSUES OF CONCERN:</p> <p>Exchange students: Exchange students need to take the exam (and potential resit) at LSM, on the day and time of the exam, like the other students.</p> <p>Prerequisite: One course in strategy/strategic management. Because this is an advanced course in strategic management that includes assignments and materials directly related to the foundations of strategic management, this course is pitched at a level that assumes some familiarity with the basics of strategic management.</p> <p>Students who register to this course certify that they have the prerequisite knowledge that is requested to be able to follow this course; the instructor will not teach these prerequisite items.</p> <p>Students who do not possess these foundations can nonetheless enroll in this course, provided that they read in advance in traditional strategy textbooks and scientific articles (important references will be provided) the topics to be covered in each session; this will be expected (to be familiar with the basics of strategic management) and important (for your success in this course).</p> <p>Preparation for class: Students are expected to articulate an in-depth understanding of the course material, and to prepare for class individually and with other course participants as the amount of work to be conducted is significant, with a tangible time pressure.</p> <p>Attendance: Attendance is required; the real value from this course takes place in the classroom and each class including a workgroup session.</p>
