

In view of the health context linked to the spread of the coronavirus, the methods of organisation and evaluation of the learning units could be adapted in different situations; these possible new methods have been - or will be - communicated by the teachers to the students.

5 credits	30.0 h + 15.0 h	Q2
-----------	-----------------	----

Teacher(s)	Engel Vincent ;
Language :	French
Place of the course	Louvain-la-Neuve
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Content	By mastering the fundamental principles of logic and argument, students will develop a critical spirit and the rhetorical tools needed to construct a correctly articulated and convincing scientific argument. To illustrate these concepts, we will use numerous examples taken from literature but also from the press, advertising, political speeches, etc. In the practical work sessions or at home, students will produce a minimum of three pieces of written work. Special attention will be paid to quotations and references in this work, so as to combat plagiarism effectively.
