36.0 h + 15.0 h

Q1 and Q2

Teacher(s)	Barréa Catherine ;Beuloye Véronique ;Brichard Bénédicte ;Clément de Cléty Stéphan ;Debauche Christian ;Godefroid Nathalie ;Lysy Philippe ;Nassogne Marie-Cécile ;Scheers Isabelle ;Smets Françoise (coordinator) ;Sokal Etienne ;Stéphenne Xavier ;Symann Sophie ;Van der Linden Dimitri ;
Language :	French
Place of the course	Bruxelles Woluwe
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Exam will be written, in June, with multiple choices and open questions with short answers. Last lesson will include training for the exam.
Teaching methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. Multidisciplinary team will teach Paediatrics transversally, aiming to prepare students for clinical rotations. Mainly based on cases discussions or common paediatric problems (cfr content here above). Background = paediatric lessons from BAC3 to Master2. Two teachers from different specialities will be associated for interaction. Specific paediatric standard of care will be underlined.
Content	Démarche clinique pédiatrique bloc2 master WMDS2228 Introduction (F. Smets) Preventive medicine (P. Lysy) Abnormal urinary stick (N. Godefroid) Acute and chronic cough (D. Van der Linden) Allergies (F. Smets) Cardiac murmur (C. Barrea) Chronic diarrhea (I. Scheers) Convulsions and attacks (M-C. Nassogne) Purpura and rash (D. Van der Linden) Adenopathies (B. Brichard) Abdominal pain (X. Stephenne) Neonatal jaundice (C. Debauche) Headaches (M-C. Nassogne) Depression/anxiety (S. Symann) Anemia - palor - asthenia (B.Brichard) Walking troubles (M-C. Nassogne) Fever (D. Van der Linden) Failure to thrive (P. Lysy) Critical child (S. Clement) Most frequent surgeries (I. Scheers) Recurrent ENT infections (D. Van der Linden) Most frequent medications (X. Stephenne) Most common symptoms (X. Stephenne) Conclusions and preparation to exam (F. Smets)
Bibliography	Pédiatrie- Antoine Bourrillon
