Special Topics in Agricultural

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

| 5 credits | $30.0 \mathrm{~h}+22.5 \mathrm{~h}$ | Q1 |
| :---: | :---: | :---: |

| Teacher(s) | Gaspart Frédéric ;Van den Broeck Goedele (coordinator) ; |
| :---: | :---: |
| Language | English |
| Place of the course | Louvain-la-Neuve |
| Main themes | Topics are from research and studies recently published in the theoretical or empirical scientific literature but close to the domain covered by agricultural and natural resource economics. Depending on the instructors, the topics can cover issues in agricultural, rural, food, regional, trade and environmental policy as well as issues related to rural development, poverty and management of natural resources as land, water and space. <br> So far as possible, topics are accompanied by initiation to quantitative methods as econometric estimations and mathematical programming. |
| Aims | With respect to the learning outcomes of the Bio-engineering in agricultural sciences, this course contributes to the following main learning outcomes: <br> 2.2-2.4: being exposed to focused state-of-the-art pieces of scientific work <br> 6.1: reading and explaining published scientific papers <br> 6.2 \& 6.4, 6.5, 6.9: presenting published scientific papers <br> By the end of the course, students are able to: <br> 1 - better understand the scientific approach in economics, in particular in agricultural and natural resource economics, <br> - apply such approach to analyse a specific socio-economic issue of interest, <br> - understand journal articles in that research domain, <br> - assess the potential but also the limits of such approach. <br> This course is a good preparation for a thesis in agricultural and natural resource economics. <br> The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit". |
| Evaluation methods | Due to the COVID-19 crisis, the information in this section is particularly likely to change. Class participation and written examination at the end of each of the two workshops. |
| Teaching methods | Due to the COVID-19 crisis, the information in this section is particularly likely to change. <br> Two workshops, each led by a specialist from the academic or professional world, organised during a summer school and lasting five full days. |
| Content | 2011, Louvain-la-Neuve, Belgium: <br> Imperfections in Rural Financial Markets in Developing Countries: Theoretical origins, Policy response and Impact evaluation (July 19-21, 2011), Prof. Steve Boucher, University of California, Davis, USA <br> 2012, Uppsala, Sweden: <br> Applications of Agricultural Trade Policy (August 15-17, 2012), Prof. James Rude, University of Alberta, Canada 2013, Budapest, Hungary: <br> Sustainable Energy Policy (August 12-15, 2013), Prof. Thomas G. Johnson, University of Missouri, USA <br> 2014, Bonn, Germany: <br> Consumer Food Choice and Policy (August 4-8, 2014), Prof. Sean Cash, Tufts University, USA <br> 2015, Barcelona, Spain: <br> Multicriteria Decision Making for Agriculture and Environment (August 3-6, 2015), Prof. Slim Zekri, Sultan Qaboos University, Oman <br> 2016, Louvain-la-Neuve, Belgium: <br> Field Experiments to Inform Policy and Programs in Development Economics (July 19-23, 2016), Prof. Nicholas Magnan, University of Georgia, USA <br> 2017, Barcelona, Spain: |

## Université catholique de Louvain - Special Topics in Agricultural Economics - en-cours-2020-lbrai2218

|  | Perspectives on International Agriculture and Rural Development (July 24-27, 2017), Prof. Ruben G. Echeverría, <br> International Center for Tropical Agriculture (CIAT), Cali, Colombia <br> 2018, Rende, Italy: <br> Quasi-experimental methods in agricultural, food and environmental policy analysis (July 16-20, 2018), Scientific <br> Committee: Rosanna Nisticò (University of Calabria), Donato Romano (University of Florence), Paolo Sckokai <br> (Universita Cattolica del Sacro Cuore), Luca Salvatici, (Roma Tre University) |
