

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

5 credits	20.0 h + 10.0 h	Q1
-----------	-----------------	----

Teacher(s)	Lemaître Andreia ;
Language :	French
Place of the course	Louvain-la-Neuve
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Main themes	In this seminar, the project general materials are integrated in a systematic and coherent frame to allow the analysis of technical, environmental, organizational, social, financial and economical feasibility as the making up one's mind about financing and carrying out.
Aims	<p>1 Ability to apply methods and techniques of project conception and formulation in a case study.</p> <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>Each sub-group presents its complete analysis (1) to all students during a final session and (2) in writing to the teacher during the exam session (January).</p> <p>In the second exam session, the teacher will decide on an appropriate examination procedure.</p>
Teaching methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>Students work in sub-groups, interacting with the teacher and the assistant. Each sub-group must realistically design a sustainable development project that includes market production (sale of goods and / or services). The sub-group develops an integral and coherent analysis of the project, following the methods of project management.</p>
Content	The seminar aims to develop in students the ability to apply to a concrete case study the methods and techniques proposed by international cooperation bodies and relating to the design, formulation and management of projects. During the seminar, the student will apply these tools seen during the course <i>LDVLP2155 Design and evaluation of development projects and policies</i> to a concrete case, to which the seminar follows. It is therefore for him / her to be able to integrate all the elements composing a project into a coherent framework, a systematic outline, which allows the feasibility analysis as well as the decision-making as to its financing and its execution.
Inline resources	See the MoodleUCLouvain site of the course
Other infos	Prerequisite: Course <i>LDVLP2155 Design and evaluation of development projects and policies</i> Indeed, the seminar follows this course and aims to apply it to a concrete case.
Faculty or entity in charge	PSAD
