Q1

Teacher(s)	Thiebaut Christophe (compensates Born Charles-Hubert) ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	The course contains notions of public law (first part) and private law (second part). The first part is about : - territory development and town-planning right : territory plans, town planning rules, agreement, sanctions and execution of plans (expropriation); - environment : agreement; - public contracts : the successive steps of contracting of a public contract are reviewed in a chronological order : selection of the way to contract a public agreement; documents of the contract; publicity; depositing of the tender; qualitative selection of the tenders; regularity of tendering; selection of the successful tenderer; conclusion of the agreement; general duty of information and motivation; execution. The second part contains two sections : the first is about the housing property and about the secondary rights of this; the second concerns the legal relations issued from the realization of a built project : acces to business, relations between the master builder and the architect, relation between the master builder and the building contractor.
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. The exam is an oral exam, consisting of two questions, with preparation time. The questions cover theory and simple exercises to put the student in a real-life situation. The student must have his texts (CoDT) with him and be able to use them.
Teaching methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. The course is given in a lecture format, with examples from teachers' professional practice and with emphasis on interaction with students.
Content	The purpose of the Urban Planning Law course is to give students an introduction to Walloon urban planning law, in two parts. The first part deals with : - Concepts (land use planning, urban planning, territorial development), their definition - The actors - Schemes (SDT, SDC, SDP, SOL, ...) and the sector plan (content, effects, elaboration procedure) - Urban planning guides (id.). The second part deals with : - Planning and urbanization permits (content, effect, issuing procedure) - Control and sanctions in urban planning law
Inline resources	Resources are posted on the course's Moodlesite.
Other infos	The course is based on a syllabus, a book of legal texts, a compilation of documentation and visuals supports. The student must be in possession of the legal texts during the course.
Faculty or entity in charge	LOCI
