

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

3 credits

30.0 h

Q1

Teacher(s)	Riviere Etienne ;Sadre Ramin ;
Language :	English
Place of the course	Louvain-la-Neuve
Main themes	<p>The topics covered in the seminar will address Computer network and security. In particular, scientific articles are selected in these fields.</p> <p>On the one hand, students are confronted with problem of the quality of a scientific bibliography. Moreover, students read scientific literature (eg articles from international journals).</p>
Aims	<p>Given the learning outcomes of the "Master in Computer Science and Engineering" program, this course contributes to the development, acquisition and evaluation of the following learning outcomes:</p> <ul style="list-style-type: none"> • INFO1.1-3 • INFO3.1, INFO3.2 • INFO5.3-4, INFO5.6 • INFO6.1, 6.4 <p>Given the learning outcomes of the "Master [120] in Computer Science" program, this course contributes to the development, acquisition and evaluation of the following learning outcomes:</p> <ul style="list-style-type: none"> • SINF1.M1 • SINF3.1, SINF3.2 • SINF5.3-4, SINF5.6 • SINF6.1, SINF6.3, SINF6.4 <p>Student completing successfully this course will be able to</p> <ul style="list-style-type: none"> • establish the state of the art based on the scientific literature, when confronted with a research problem beyond his current knowledge, • prepare a comprehensive report including a scientific bibliography and explaining its relevance to a theme, • synthesize a scientific article by explaining the context, challenges, innovative results, potential applications as well as tracks for further work in the field, • communicate orally the results of a research to a public of computer scientists not experts in the field, • interact with a person who presents research results showing a critical and constructive look over the work presented. <p>-----</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
Evaluation methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>Writing the survey accounts for 40% of the points in the final grade. Students review also two surveys written by other participants. Reviews are individual and account for 15% of the points in the final grade.</p> <p>The active participation of students to group activities and to the seminar accounts for 10% of the points in the final grade.</p> <p>The individual presentation of a scientific paper accounts for 30% of the final grade. Students review also two presentations by other participants. Reviews are individual and account for 5% of the points in the final grade.</p> <p>For the second session, grades obtained for the reviews and participation will be kept and the survey and the presentation must be redone individually.</p>
Teaching methods	<p>Due to the COVID-19 crisis, the information in this section is particularly likely to change.</p> <p>This seminar consists of:</p> <ul style="list-style-type: none"> • Writing a survey • Individual presentation of a scientific article <p>Activities include interactive activities, personal work, and one-to-one meeting with the professors.</p>

<p>Inline resources</p>	<p>http://moodleucl.uclouvain.be/course/view.php?id=12895</p>
<p>Other infos</p>	<p>The research seminar should be followed the same year as the end of study work because it is a methodological support to its realization. It is not necessary to select the option corresponding to the seminar in order to participate.</p>
<p>Faculty or entity in charge</p>	<p>INFO</p>
