

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

7 credits	15.0 h + 40.0 h	Q2
-----------	-----------------	----

Teacher(s)	Plumat Jim ;
Language :	French
Place of the course	Louvain-la-Neuve
Aims	<i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i>
Evaluation methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. During the seminar and internships, students will be asked to create a personal portfolio including reflective work (20% of the final mark). The marks awarded for the internships will be established in consultation with the training supervisors, the incumbent and the teaching staff (80% of the final mark). A mark equal to or greater than 10/20 in each part of the assessment must be obtained to succeed.
Teaching methods	Due to the COVID-19 crisis, the information in this section is particularly likely to change. The teaching activities will be carried out by the holder of the teaching unit, mainly in co-construction with the students.
Content	This teaching unit consists of "tooling" the students to become future physics teachers, by bringing them to put into practice, within their training courses, all the theoretical elements addressed in the didactics courses and the seminar.
Bibliography	Des ouvrages en relation avec les disciplines enseignées et avec la pratique seront présentés lors des cours. Books related to the subjects taught and to the teaching practice will be presented during the lectures.
Faculty or entity in charge	CAFC
