Development of professional skills in research A

Due to the COVID-19 crisis, the information below is subject to change, in particular that concerning the teaching mode (presential, distance or in a comodal or hybrid format).

4 credits	30.0 h	Q2

Teacher(s)	Edwards Martin ;
Language :	English
Place of the course	Louvain-la-Neuve
Aims	*The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".*
Evaluation methods	**Due to the COVID-19 crisis, the information in this section is particularly likely to change.** The modality of the evaluation involves: (1) the simulation of making a candidature for a research post, and (2) creating a research poster and presenting the poster (in class or online). Both works must be in English and involve written and oral modalities. Both evaluations must have a minimum grade of 10/20
Teaching methods	**Due to the COVID-19 crisis, the information in this section is particularly likely to change.** Lectures
Content	The main objective of the course is to provide support and research skill training to research internship students. The training includes research project planning, research project monitoring, research collaborations, scientific fraud, data management, research communication, the process of publication and peer review and a discussion of open versus traditional science. We discuss the different possibilities of a career in research (university, business, government, communication...), the methods by which to obtain funding for research, and effective methods to apply for a research post.
Inline resources	The Moodle platform
Other infos	The course is given in English.
Faculty or entity in charge	EPSY
