Q2

Teacher(s)	Meyer Sandrine ;Thielemans Benoit ;Van Moeseke Geoffrey ;
Language :	French
Place of the course	Bruxelles Saint-Gilles
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Main themes	<p>This teaching unit, entitled <i>Research Workshops IN and ON Architecture</i> , is taught by joint lecturers. It enables students first to develop a research project linked to an architectural project based on an individual topic and second to place this project, in a critical way, in relation to the shared issue and in relation to similar projects of other students.</p> <p>All the students work together in the research workshop; this encourages group competitiveness and autonomy. These research workshops are linked to the <i>Final Dissertation</i> which is done entirely independently.</p>
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <p>Design a project</p> <ul style="list-style-type: none"> • <i>Express and prioritise the aims of the projects so as to be able to make choices</i> • <i>Analyse, consider and invent artistic practices through drawings and models</i> • <i>Adopt approaches which are methodical, creative, metaphorical, perceptive, collaborative etc.</i> <p>Test an artistic approach</p> <ul style="list-style-type: none"> • <i>To capture the 'spirit of the time' and identify the means which will enable it to be revealed</i> • <i>To imagine drivers which can transform the perception of what is real</i> <p>Place the action</p> <ul style="list-style-type: none"> • <i>Identify and analyse the paradigms on which the study is based according to various given methods and starting from various points of view</i> <p>Make use of other subjects</p> <ul style="list-style-type: none"> • <i>Interpret and synthesise the knowledge of other subjects</i> <p>1 Use the technical dimension</p> <ul style="list-style-type: none"> • <i>Be able to apply the various basic technical principles in producing a work of architecture</i> <p>Express an architectural procedure</p> <p>Test and use relevant means of communication in relation to the intended audience and the target objectives</p> <p>Adopt a professional attitude</p> <ul style="list-style-type: none"> • <i>Act as an independent player able to understand the framework of his/her mission, and the responsibilities towards third parties as well as his/her legal obligations</i> <p>Make committed choices</p> <ul style="list-style-type: none"> • <i>Develop awareness of the political meaning of the work of an architect and his/her responsibility towards society</i> • <i>Make links between different methodological and epistemological perspectives</i> • <i>Understand the merits of an idea which can lead to the objectives to be achieved by the project; follow through with determination, even by means of a modest intervention, the implementation of this idea and the achievement of these objectives</i>
