

4.00 credits

22.5 h + 22.5 h

Q1

Teacher(s)	Agnan Yannick ;Delmelle Pierre (coordinator) ;Hardy Brieuc (compensates Delmelle Pierre) ;
Language :	French
Place of the course	Louvain-la-Neuve
Prerequisites	<ul style="list-style-type: none"> - Introduction aux sciences de la Terre [LBIR1130] - Introduction à l'ingénierie de la biosphère [LBIR1230] - Sciences du sol et excursions intégrées [LBIR1336]
Main themes	<ul style="list-style-type: none"> - Soils as bio-physico-chemical reactors at the interface between the lithosphere, biosphere, hydrosphere, and atmosphere - Pedological processes governing soil formation and functioning - Physico-chemical reactions which underpin the response of soils to natural and anthropogenic perturbations
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <ul style="list-style-type: none"> a. Contribution of the activity to the framework AA M1.1, M1.2, M1.3, M1.4, M1.5 M2.1, M2.2, M2.3, M2.4 M3.4 M6.2, M6.5 b. Expected learning outcomes <p>1 At the end of the activity, the student is able to:</p> <ul style="list-style-type: none"> - Describe the pedological processes governing soil formation and functioning - Explain the physico-chemical reactions which underpin the response of soils to natural and anthropogenic perturbations - Determine the factors and processes responsible for the variability of soil properties - Assess the response of soil to natural and anthropogenic perturbations
Evaluation methods	<ul style="list-style-type: none"> - Group project report - Open book written exam
Teaching methods	<ul style="list-style-type: none"> - Face-to-face classes - Field group project - Field excursion - Applied problems
Content	<ol style="list-style-type: none"> 1. Introduction 2. Soil acidity 3. Soil weathering and formation 4. Dynamics of soil organic matter 5. Sorption reactions 6. Redox reactions 7. Soil development 8. Case studies
Inline resources	Lecture notes and other teaching resources available on Moodle
Bibliography	<p>Blume H.-P., Brümmer G.W., Fleige H., Horn R., Kandeler E., Kögel-Knabner I., Kretschmar R., Stahr K., Wilke B.-M. (2016). Scheffer/Schachtschabel soil science.
