Q2

Teacher(s)	Meirlaen Sandrine ;Page Melissa ;Toubeau Anne-Julie ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	Training in scientific presentation skills, focusing on biology issues (taught by an English language teacher of the Institut des Langues Vivantes, UCL) and a public presentation in English of the state of progress of the student's master thesis.
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <p>1 After this module students should feel fairly confident when giving a scientific presentation in English, focusing mainly on the academic field of biology.</p>
Evaluation methods	<p>The assessment takes place in June and focuses on the quality of the talk and the ability to answer specific questions.</p> <p>As to the English language command, assessment will focus on the student's progress throughout the language sessions, with specific attention to the pronunciation of recurrent terms, overall fluency and the way the student has actually applied the presentation techniques developed in class.</p> <p>The talk can be online depending on the sanitary situation.</p>
Teaching methods	<p>The course consists of three parts:</p> <ol style="list-style-type: none"> 1. Training sessions (8 x 2h) on effective oral presentation techniques in science: facts and figures (graphs, comparisons, likelihood etc.), visual aids, systematic pronunciation of recurrent terms in science and biology. 2. Students can rehearse their presentation individually with the help of the language teacher. 3. Final presentation at the end of term: public talk about the state of progress of the student's master thesis in presence of the thesis supervisor, followed by questions and discussion. <p>The modalities will evolve according to the health situation.</p>
Content	<p>The course consists of three parts:</p> <ol style="list-style-type: none"> 1. Training sessions (16h) on effective oral presentation techniques in science: facts and figures (graphs, comparisons, likelihood etc.), visual aids, systematic pronunciation of recurrent terms in science and biology. 2. Students can rehearse their presentation individually with the help of the language teacher (10h in all). 3. Final presentation at the end of term: public talk about the state of progress of the student's master thesis in presence of the thesis supervisor, followed by questions and discussion. <p>The modalities will evolve according to the health situation.</p>
