

30.00 credits

Q2

Language :	English
Place of the course	Louvain-la-Neuve
Main themes	<p>The internship will allow the student to put his basic training into practice in a professional setting. Not only will he/she discover how the knowledge gained from his/her training can be put into practice, but he/she will also be confronted with the organization of a company (teamwork, advantages and constraints...).</p> <p>An internship in a company is a significant asset on the student's CV.</p>
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <ul style="list-style-type: none"> - To make the student aware of the aspects of the company ; - To develop the human qualities of integration, the spirit of initiative and the capacity of adaptation of the student to the professional environment ; - To develop the student's motivation for the profession and to specify the choice of his/her orientation ; - To carry out a first learning of the application of theoretical knowledge and techniques learned during the courses ; - Acquire skills that are different from those acquired during the student's studies but directly related to them.
Evaluation methods	<p>The internship gives rise to a written report following an outline set by the academic internship manager. The final evaluation will be based on this document, as well as on the evaluation of the internship by the local "internship supervisor" and on an oral defense (presentation and questions) by a jury made up of academic members of the UCL.</p>
Content	<p>The internship is a mandatory activity in the course of the student in chemistry with a specialization. It will take place in the framework of a host institution: company or public administration; in Belgium or abroad.</p> <p>It will have a duration equal to one quarter (fourteen weeks) full time and will take place during the second quarter of the first year of the Master.</p> <p>The internship will be supervised by a local "internship supervisor".</p>
Other infos	<p>The choice of the host institution and the internship supervisor will be proposed by the student and must be approved by the university supervisor.</p> <p>The internship is subject to an agreement signed by all parties before the beginning of the internship.</p> <p>The professor in charge of the internship may intervene to help the student find a place for the internship.</p>
