Q2

This learning unit is not open to incoming exchange students!

Language :	English
Place of the course	Louvain-la-Neuve
Learning outcomes	
Evaluation methods	The learning outcomes are evaluated in a written assessment; on the one hand continuously through the MOOC exercises, and on the other hand through a written assignment to be handed in at the end of the course.
Teaching methods	Depending on the circumstances, teaching is done in person and/or at a distance. Teaching is based on a MOOC Asylum and Refugee Law accessible on the edx platform. Every student therefore participates actively in it. Specific support, complementary to the MOOC, is provided, at a distance and/or in person, depending on the circumstances.
Content	The course focuses on Asylum and Refugee Law. However, the perspective is broadened beyond the law to include the political and social issues raised by International Refugee Law.
Inline resources	From January 2021 the MOOC <i>Asylum and Refugee Law</i> is available in English on the edx platform and can be followed in English by students.
