Content	<p>From Republic to Empire: an approach to the institutional, social and ideological aspects of a political metamorphosis</p> <p>On January 16th, 27 B.C., the heir of Julius Caesar, who for more than ten years was named Imperator Caesar, was granted the cognomen Augustus by the Senate. Having put an end to the civil war, he presented himself as the restorer of the traditional res publica, but in fact, a monarchy was then being established, with the consent and support of the Senate and the people. How could the Roman Republic, which always claimed to be fiercely opposed to the kingship, change into a monarchical regime, the Principate? This course intends to provide some answers to this question, focusing primarily on the institutional, social, ideological and religious aspects of this political metamorphosis, which was initiated in the aftermath of the second punic war (ca. 200 B.C.).</p>
