| Language : | French | | | |
| Place of the course | Louvain-la-Neuve | | | |
| Main themes | - To differentiate the different historical forms of the welfare state To situate the various analytical currents looking at transformations taking place now To analyse provisions for action sectorally and transversely To design and carry out a diagnostic action comparatively. | | | |
| Learning outcomes | At the end of this learning unit, the student is able to : By the end of the course, students should be able to: - analyse present-day transformations affecting the welfare state, identify its foundations, and explain the conditions of these changes; - analyse the provisions that characterise social policies within the framework of a comparative approach; - understand the demands of a comparative approach in the framework of the establishment of a diagnosis. | | | |
| Other infos | Pre-requirements: A basic grounding in sociology is required, as is the ability to read English. Assessment: A comparative diagnosis concerning a social policy measure (in the form of a written text). Students will present this text to the group on a day of collective exchange. Support: A reading portfolio (i.e. basic texts and files for each provision). | | | |
